

Five documents, one conversation

Everything a school leader, project owner, DPO, or finance director needs to take the next step on an English Hub pilot.

Each document below is a standalone HTML file. Open it in any browser to read, or use the browser's print function (Ctrl/Cmd + P) to save as PDF for sharing on WhatsApp, email, or your school's procurement system.

01 · FOR SCHOOL LEADERSHIP Solutions and value

What we do, the four levers we move that research identifies as drivers of writing improvement, the illustrative value framing, and the procurement-ready data-protection position.

02 · FOR SCHOOL LEADERSHIP Pricing and pilot

Pilot from £2,500 (single year group), £4,000 (department), or custom (multi-campus). Annual deployment from £6,000 / £12,000 / custom from £25,000. Success criteria, commitments, three steps to commit.

03 · FOR THE PROJECT OWNER

Getting started

From your email to first marked essay in 7 days. What you do not need to do (no training week, no IT integration, no MIS sync required). The project owner's week-by-week time commitment: ~60 minutes per week.

04 · VISUAL TOUR

Inside the platform

12 screens from the live application — student dashboard, AI essay marking, teacher workflow, school analytics, parent weekly email, mock exam library, KS3 + EAL hubs, the Qatar PDPPL consent panel, privacy dashboard.

05 · FOR FINANCE DIRECTORS AND BUSINESS MANAGERS

Illustrative ROI – the working in full

Every assumption shown. Designed to survive scrutiny rather than dazzle with a fabricated number. Lever 1 (marking-time recovery) monetised in full; Levers 2 and 4 deliberately not monetised; Lever 3 (avoided procurement-risk cost) £10,000+ one-off.

PRACTICAL NOTES

How to share these

Email and WhatsApp

Open any document in your browser, press **Ctrl/Cmd + P**, and save as PDF. The print stylesheet is tuned to A4 with clean margins and page-break-respecting layout. The resulting PDFs are typically 100–250 KB each — well under WhatsApp's fast-share threshold.

Procurement portals

Upload the printed PDFs into the school's procurement system. The compliance section of document 01 plus the full PDMS index (available on request to dpo@theenglishhub.app) is what typically gets requested.

In a conversation

The five documents are sequenced for a conversation: document 01 first, then 02 when the school signals interest, 03 to remove the implementation objection, 04 for the visual tour, 05 for the finance review. Send them in that order rather than all at once.

Talk to us

dpo@theenglishhub.app — subject "**Pilot interest — [your school name]**". Reply within 24 hours with the pilot pack.
