

Pricing and the School Pilot

A structured pilot first – typically one term, defined success criteria, no auto-renew. Annual deployment follows if and only if the pilot meets the criteria you set with us.

theenglishhub.app/pricing · Updated 20 May 2026

All school pricing on this page is the live public pricing from theenglishhub.app/pricing. Final pricing depends on school size, scope, and rollout requirements; the "from" figures below are the indicative starting points.

STAGE 1 — THE SCHOOL PILOT

Founder Pilot — one term

The pilot runs for approximately one term (8–12 weeks), scoped to fit a natural half-term boundary at your school. Success criteria are agreed in writing in the kickoff call.

Single year group

£2,500

from · one-term pilot

- One year group (e.g. one Year 11 IGCSE cohort, 60–120 students)
- Full platform access for that cohort
- Teacher dashboard scoped to that year's classes

Indicative founder pricing.

English department

£4,000

from · one-term pilot

- Whole English department, Y7–Y13 (300–800 students typical)
- Full platform access for every student studying English
- Whole-department teacher dashboard + leadership analytics

Indicative founder pricing.

Multi-campus / group

Custom

2+ campuses

- Education group (Nord Anglia, ISP, GEMS, Cognita, regional chains)
- Two-campus proof-of-concept escalating to group rollout
- Pricing scoped per group in the kickoff conversation

Custom — no fixed floor.

WHAT'S NOT IN A PILOT

No auto-renew. No "minimum 3-year" lock-in. No clawback for cancellation. Termination at will by either side with 7 days' written notice during the pilot; refund pro-rated to weeks actually delivered.

STAGE 2 — ANNUAL DEPLOYMENT

After a successful pilot

If the pilot meets the success criteria you set with us, the school converts to an annual deployment.

Small school

£6,000

from · per academic year

- Single-campus, typically up to 500 students
- Whole-school access for every student studying English Y7–Y13
- Teacher + leadership dashboards

Indicative; final price depends on scope.

Mid-sized school

£12,000

from · per academic year

- Single-campus, 500–1,500 students
- Same access + leadership analytics
- Optional one-way MIS sync (iSAMS / Engage / Bromcom / Arbor)

Indicative; final price depends on scope.

Large school or group

Custom

typically from £25,000/yr

- 1,500+ students, or multi-campus group
- Custom MIS integration if required
- Group-level analytics across campuses

Custom — scoped per group.

SUCCESS CRITERIA — AGREED IN WRITING IN WEEK 1

How we measure whether the pilot works

We do not run open-ended evaluations. The criteria below are our defaults; we adapt them in the kickoff call to fit what matters most to your department. **If we miss the agreed criteria, the school does not renew and owes nothing beyond the pilot fee.**

METRIC	DEFAULT TARGET	HOW MEASURED
Department adoption	$\geq 70\%$ of teachers active by Week 4	Platform login data
Marking turnaround for the practice cohort	From ≥ 7 days $\rightarrow$ under 1 hour median	Platform analytics
Student time on platform per week	≥ 25 minutes per active student	Platform analytics
Parent engagement with weekly emails	$\geq 40\%$ open rate	Email analytics
Teacher NPS at close-out	$\geq +30$	Anonymous survey

WHAT EACH SIDE COMMITS TO

Pilot responsibilities

WHAT YOUR SCHOOL COMMITS TO

- One project owner (Head of English or Deputy Head Academic), ~60 minutes per week
- Three 30-minute calls: kickoff (Week 1), mid-review (Week 4–6), close-out (final week)
- A student roster — CSV upload or MIS export
- Honest feedback throughout the pilot

WHAT WE COMMIT TO

- Founder-level support within 24 working hours, direct to the project owner
- Bi-weekly platform updates, prioritising pilot-school requests
- A Week-1 DPO call with your data-protection lead, separate from the academic kickoff
- A 48-hour exit pack on request: full data export, deletion confirmation, audit certificate

PROCUREMENT-READY COMPLIANCE

The data-protection position

- **PDPPL Article 17 cross-border consent** live in the signup flow as of 20 May 2026
 - **Three v1.0 DPIAs** on file: processing of children's data, AI features, analytics
 - **Article 16 permit application dossier** drafted and shelf-ready for NCGAA submission
 - **Separately-appointed DPO + DSL**
 - **EU-region primary database** + UK-region backend + zero AI-training on submitted essays (contractual)
 - **ICO Children's Code high-privacy defaults** enforced in code; strict test coverage
 - **Pilot agreement is one page**; standard DPA available to your DPO before signature
-

How to commit

Three steps.

1. Email dpo@theenglishhub.app with subject "**Pilot interest — [your school name]**".
Tell us scope (year-group / department / multi-campus), year groups, the project-owner name and email, and anyone to cc.
2. Within 24 hours, we send the one-page pilot agreement, the DPA, and a compliance dossier for your DPO (PDMS index + RoPA + three v1.0 DPIAs + sub-processor list).
3. Kickoff within 5 working days of countersignature.
