

The English Hub

Pricing & the Founding-Schools Pilot

Founding cohort: 10 schools at £4,000/year, locked for the life of the licence. Doubles to £8,000 from August 2026.

theenglishhub.app · dpo@theenglishhub.app Calum Johnson, Founder Upskill Energy Limited (UK Companies House 16511479) · ICO ZC016690

The Founding Schools Programme

We are admitting the **first 10 schools** into the Founding Schools cohort at **£4,000 per school per year** — all-in, whole-school access for every student studying English from Year 7 through Year 13.

Tier	Founding (now)	Standard (from August 2026)
Whole-school annual deployment	£4,000 / year	£8,000 / year
Cohort cap	10 schools	unlimited

What "for the life of the licence" means

The price you join at is the price you keep. When our standard pricing doubles to £8,000 in August 2026, Founding-cohort schools stay at £4,000 indefinitely — for as long as the school renews continuously, no annual increase, no surprise mid-contract uplift.

Why we cap at 10

We are a small founder-led team. Ten Founding schools is the number we can support with **founder-level attention** — direct access to me, 24-working-hour response on anything raised by your project owner, bi-weekly platform updates with at least one improvement per cycle prioritising your requests. After ten, we move to standard support tiers and standard pricing.

The pilot — try before the annual commitment

Before any annual deployment, we run a **one-term pilot** with defined success criteria agreed in writing before kickoff. **No auto-renew. No "minimum 3-year" lock-in.**

Three pilot scopes — choose what fits

Scope	Fee	Cohort	Best for
A — Year-group pilot	from £2,500	One year group (e.g. one Y11 IGCSE cohort, 60–120 students)	Schools wanting a low-risk test on the cohort that matters most this academic year
B — Department pilot	from £4,000	Whole English department, Y7–Y13 (300–800 students)	Schools committed to AI in the English department and wanting whole-cohort data from week 1
C — Multi-campus / group pilot	custom	2+ campuses	Education groups (Nord Anglia, ISP, GEMS, Cognita, local Doha chains) wanting a group-level proof-of-concept

Indicative founder pricing. Final pricing depends on school size, scope, and rollout requirements.

Pilot length: ~one term (8–12 weeks), scoped to fit a natural half-term boundary at your school.

Success criteria — agreed in writing in Week 1

We do not run open-ended evaluations. The criteria below are our defaults; we adapt them in the kickoff call to fit your school. **If we miss them, you do not renew and you owe nothing beyond the pilot fee.**

Metric	Default target	How we measure
Department adoption	≥ 70% of teachers active by Week 4	Platform login data
Marking turnaround for the practice cohort	from ≥ 7 days → under 1 hour median	Platform analytics
Student time-on-platform per week	≥ 25 minutes per active student	Platform analytics
Parent engagement with weekly emails	≥ 40% open rate	Email analytics
Teacher NPS at close-out	≥ +30	Anonymous survey

These are **defaults**. We change them in the kickoff call to fit what matters most to your department.

What you commit to vs what we commit to

What [Your School] commits to during the pilot

- **One project owner** (typically Head of English or Deputy Head Academic) — approximately 60 minutes / week of attention
- **Three 30-minute calls** — kickoff (Week 1), mid-review (Week 4–6), close-out (final week)
- **Honest feedback throughout** — what's working, what isn't, what to change
- A **student roster** for the pilot cohort (CSV upload, or use your MIS export)

That's it. No teacher training sessions to schedule. No "implementation consultant" charge. No integration project.

What The English Hub commits to during the pilot

- **Founder-level support** within 24 working hours, direct
 - **Bi-weekly platform updates** with at least one improvement per cycle prioritising your requests
 - **Full PDPPL + UK GDPR + Children's Code posture** — Article 17 cross-border consent live in signup, three v1.0 DPIAs, separately-appointed DPO + DSL, EU-region primary database, zero AI-training on student data (contractual)
 - **A Week-1 DPO call**, separate from the academic kickoff — we send your DPO the PDMS index, RoPA, three v1.0 DPIAs, and sub-processor list ahead of that call
 - **48-hour exit pack** at any point you ask for it: full data export, deletion confirmation, audit certificate
-

Annual deployment — after a successful pilot

If the pilot meets the agreed success criteria and you continue, you convert to annual deployment at the **Founding rate for the life of your licence**.

Tier	Annual fee	Best fit
Founding (single-campus, ≤1,000 students)	£4,000 / year	The cap is 10 schools at this rate
Mid-size school (custom)	from £6,000 / year	1,000–1,500 students or multi-cohort complexity
Larger school (custom)	from £12,000 / year	1,500+ students
Education group / multi-campus	typically from £25,000 / year	Group-level rollouts (Nord Anglia, ISP, GEMS, etc.)

Indicative founder pricing. Final pricing depends on school size, scope, and rollout requirements.

What's NOT in any fee above

- **Sworn Modern Standard Arabic translation** of policy documents (~£500–£1,500 if required)
- **Bespoke MIS integrations** (iSAMS, Engage, etc.) — scoped separately
- **On-site training visits** — the platform is self-service; if you want a half-day on-site, travel + £750

How to commit

Three steps:

Step 1 — Reply

Email dpo@theenglishhub.app with subject:

Pilot interest — [your school name]

Tell us:

1. **Which pilot scope** (A / B / C) and which year groups
2. **The project owner's name and email** on your side
3. **Anyone we should cc** — your DPO, Deputy Head, anyone else

Step 2 — We send the pack within 24 hours

- One-page pilot agreement
- Data Processing Agreement (DPA)
- Compliance dossier — PDMS index + RoPA + three v1.0 DPIAs + sub-processor list

Step 3 — Kickoff within 5 working days

Two calls in Week 1:

- **30-minute academic kickoff** — class setup, agree success criteria
 - **30-minute DPO call** — walk through the compliance pack, answer questions
-

Legal framework — the short version

Item	Position
Pilot agreement	One page. Not a 40-page MSA.
Data Processing Agreement	Our standard, fits UK GDPR + PDPPL. Available to your DPO before signature.
Termination	At will by either side, 7 days' notice during pilot, refund pro-rated. No clawback for cancellation.
Auto-renew	None. You actively choose to convert to annual deployment.
Lock-in	None. Annual deployment is year-by-year.
Governing law	England and Wales for pilot. Can switch to Qatar law for annual deployment if your procurement requires.
Liability cap	Capped at the pilot fee or annual fee. Standard for our stage and contract value.
