

DEPLOYMENT PACK

School deployment pack

Everything a school's leadership, project owner, DPO, and procurement team need to evaluate, sign, and run a pilot – in one folder.

Upskill Energy Limited · Co. 16511479 · ICO ZC016690 · dpo@theenglishhub.app

Hand the whole pack to a school, or send only the documents a given person needs. The agreement and the data-protection set (01–08) are what procurement and the DPO ask for; the onboarding set (09–12) is what the project owner uses to actually run the pilot.

Agreements & data protection (for leadership, DPO, procurement)

#	DOCUMENT	WHO IT'S FOR / WHAT IT ANSWERS
01	Pilot Agreement	The one-page contract. Scope, fee, term, no auto-renew, governing law. Signature page included.
02	Data Processing Agreement	The DPA the school's DPO reviews. Controller/processor roles, processing detail, sub-processors, transfers, breach, audit.
03	Sub-processor Register	Every third party that may touch data, what they do, where, and honest DPA status.
04	Information Security Statement	Technical + organisational measures. TLS 1.3, AES-256, Argon2id, RLS, MFA, audit logging, breach response. Honest certification status.
05	Data Retention & Deletion Schedule	How long each data category is kept; deletion on request; the 48-hour exit pack.
06	Compliance Summary	UK GDPR + DPA 2018 + Children's Code + PDPPL at a glance, plus what we explicitly do NOT claim.
07	Vendor Due-Diligence Questionnaire	The procurement/IT/security questionnaire — pre-answered. Saves the back-and-forth.
08	Safeguarding Statement	DSL contact, reporting routes, emergency signposting, frameworks, vetting scope, whistleblowing.

Onboarding & how-to (for the project owner + teachers)

#	DOCUMENT	WHO IT'S FOR / WHAT IT ANSWERS
09	Project Owner Checklist	Everything the pilot owner does, in order, week by week. ~6–8 hours total.
10	Kickoff Agenda & Success Criteria	The two Week-1 calls minute-by-minute, plus the success-criteria table to complete and sign.
11	Parent Communication Templates	Ready-to-send parent notice + consent request; what parents can and cannot see.
12	Student Roster Upload Guide	How to prepare and send the cohort securely. Pairs with <code>roster-template.csv</code> .
—	roster-template.csv	The fill-in CSV with the exact columns and example rows.

How to use this pack

- **At first contact:** send the school-pack shareables (separate folder) — Solutions & Value, Pricing, the one-page Pilot Rollout. This deployment pack is what follows once they're interested.
- **When they say "send me the pilot terms":** send 01 (Pilot Agreement) + 02 (DPA) + 06 (Compliance Summary).
- **When their DPO / IT engages:** send 02–08 (the full data-protection + security + safeguarding set). 07 (the pre-answered DDQ) usually closes most questions on its own.
- **When they sign:** the project owner works through 09–12 to run the pilot.

A NOTE ON HONESTY

These documents state our position accurately, including where things are still being finalised — counter-signed sub-processor DPAs, the AI no-training confirmation, certifications not yet held, and the Qatar Article 16 permit not yet submitted. A school's DPO will trust an honest pack far more than a glossy one. Do not edit these to overstate the position.
