

How a school pilot runs

What happens, who does it, and when — one term, defined success criteria, no auto-renew.

● Your school does this ● The English Hub does this ● Done together

DAY 0-3 • SETUP

Agree & sign

- Email us; confirm scope + year groups
- We send the 1-page agreement, DPA & compliance pack within 24h
- Countersign when ready

DAY 4-7 • LAUNCH

Kickoff & go live

- 30-min kickoff: upload roster, create classes, set success criteria
- 30-min DPO call: walk the compliance pack
- Accounts activate; first essay marked in < 1 min

WEEKS 2-10 • RUN

Use & review

- Department uses the platform; ~30 min/week check-in
- Bi-weekly updates; 24h support
- Week 4-6 mid-review vs the agreed metrics

WEEKS 11-12 • DECIDE

Close-out

- 30-min close-out: assess success criteria
- Go / no-go on annual deployment
- If no: 48h exit pack (export + deletion + certificate)

Who needs to do what

Project owner (Head of English / Deputy)	Owns the pilot. ~60 min/week. Joins the 3 calls (kickoff, mid-review, close-out), uploads the roster, briefs the department, gives honest feedback.
Data-protection lead (DPO / IT)	One 30-min call in Week 1. Reviews the compliance pack we send 24h ahead. No further involvement unless something changes.
English teachers	Use the platform self-service — no training day. Optional 3-min tour video. Escalate any issue to the project owner.
The English Hub	Founder-level support within 24h, bi-weekly platform updates, the Week-1 DPO call, and the 48h exit pack on request.

How it's done

- Web app — students sign in with school email; no install, no IT project
- Roster uploaded by CSV (or MIS export: ISAMS, Engage, Bromcom, Arbor)
- Classes set up by exam board, teacher and year group in ~10 min
- Success criteria agreed in writing before launch — marking turnaround, adoption, teacher NPS
- One-page agreement; standard DPA fitting UK GDPR + PDPPL; no lock-in

7 days

From your email to the first AI-marked essay landing with a student

~6-8 hrs

Total project-owner time across the whole 12-week term

No lock-in

No auto-renew, no minimum term, no clawback — you renew only if it works
